

RISVAN MUHAMMED

Full Stack Developer — .NET & React

risvanmd172@gmail.com | +91 6238741289 | Calicut, Kerala | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of hands-on experience building production web applications and REST APIs using ASP.NET Core, C#, SQL Server, and React.js. Skilled in Clean Architecture, JWT authentication, SQL optimization, and delivering full-stack features in Agile teams. Immediate joiner — open to on-site, hybrid, and remote opportunities.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL, HTML5, CSS3

Backend: ASP.NET Core 8, ASP.NET MVC, .NET Core, .NET Framework, Web API, Entity Framework Core, Dapper, ADO.NET, REST API Design

Frontend: React.js, React 18, TypeScript, Context API, Bootstrap, Tailwind CSS, Responsive UI

Database: SQL Server, Stored Procedures, Query Optimization, Indexing, SSMS

Architecture: Clean Architecture, Microservices, Domain-Driven Design, Repository Pattern, SOLID, OOP

Security: JWT Authentication, Refresh Token Rotation, RBAC, OTP Verification

Cloud & Tools: AWS, Azure (basic), Vercel, Docker (basic), Git, GitHub, Visual Studio, VS Code, Postman, Swagger

Methodologies: Agile, Scrum, Code Reviews, CI/CD (basic)

PROFESSIONAL EXPERIENCE

Full Stack Developer — Bridgeon Solutions LLP, Calicut | Apr 2025 – Present

- Built and maintained RESTful ASP.NET Core APIs using C# for product, cart, and order modules in a live production environment.
- Optimized SQL Server stored procedures and queries to improve API response performance across multiple application modules.
- Developed reusable React.js frontend components with TypeScript, Bootstrap, and Tailwind CSS, integrated with .NET Core backends.
- Implemented JWT + Refresh Token authentication with Role-Based Access Control (RBAC) across Admin and User roles.
- Resolved production defects across QA cycles, maintaining system stability and improving overall code quality.
- Introduced peer code reviews enforcing SOLID principles and Clean Architecture standards within the development team.

PROJECTS

SportX — B2C Football Accessories E-Commerce Platform | Live Demo | GitHub

- Architected a production-deployed full-stack e-commerce platform using Domain-Driven Design, Clean Architecture, and ASP.NET Core 8.
 - Integrated Razorpay payment gateway with Online and Cash-on-Delivery flows, managing payment states (Pending, Paid, Failed) with full error handling.
 - Secured the platform with JWT + Refresh Token rotation, OTP verification, and RBAC across Admin and User roles.
 - Designed Order Lifecycle Management with automated status tracking, shipping snapshots, and soft-delete audit logging via a global BaseEntity pattern.
- Tech Stack: ASP.NET Core 8, C#, EF Core, SQL Server, Razorpay, JWT, React.js, TypeScript, Tailwind CSS, Vercel*

GOMEDIC — Multi-Tenant Healthcare Microservices Platform | GitHub | (In Development)

- Architecting a multi-tenant SaaS hospital management system using Microservices and Ocelot API Gateway, enabling multiple hospital branches from a single deployment.
- Built a SignalR-based real-time notification engine for instant patient alerts on appointment changes, lab results, and schedule updates.
- Developing clinical modules: Bed Management, Pharmacy Stock Tracking with low-stock alerts, Lab Order processing, and automated Billing/Invoicing.

Tech Stack: ASP.NET Core 8, C#, Microservices, Ocelot Gateway, SignalR, SQL Server, EF Core, React 18, TypeScript, Docker

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Microsoft Learn — ASP.NET Core APIs | SQL Server Performance Tuning | React Development Course

EDUCATION

Bachelor of Science in Chemistry — WMO Arts & Science College, Muttill | 2022–2025

Relevant coursework: Databases, Data Structures, Web Development
